

LED Inspection Lamp

Part No: BTI-NS-LED-INSP

This versatile LED inspection lamp brings together the latest LED and battery technologies. It uses 34 super bright LEDs and has a highly polished reflector to enhance the even spread of light output. It is powered by high capacity Ni-MH batteries, operating continuously for 5 hours from a single charge and can be recharged at any state of discharge without any restricted charge memory. It is perfect for engineers, electricians, plumbers, for use in workshops, garages, lofts and for under floorboards or confined spaces. It is housed in a heavy duty rubber case, has a shatterproof polycarbonate lens and is resistant to oil and grease.
