

## Matrix Headtorch

Part No: BTI-NS-LEDD

The Matrix Headlight features the Super-Power LUXEON 1 Watt LED and 3 Super-Bright Nichia LEDs, making this a very powerful and versatile Headlight. Lightweight and compact, the Matrix can be adjusted through 90 degrees vertically and is both water and shock resistant. The Matrix is very efficient, utilising LEDs which, unlike conventional bulbs, never need replacing, last a lifetime (100,000 hours) and only consume a fraction of the power. You can select to use either 1, 2 or 3 of the Super-Bright Nichia LEDs or switch to the Super-Power LUXEON™ 1 Watt LED, providing a powerful bright beam. This can also be set to a flashing mode for emergencies. The Matrix light output is digitally controlled, maintaining a consistent level of light throughout the batteries discharge.
